

Dear Resident,

2nd April 2020

Super Fast Fibre Broadband Upgrade at Coomera Waters

LBNCo is pleased to advise that we are offering to upgrade the existing legacy copper broadband infrastructure at your home at Coomera Waters from Fibre to the Node (FTTN) to Fibre to the Home (FTTH).

The upgraded network will offer you :-

- Significantly improved internet performance (up to 250/1000Mbps) and future proof beyond these speeds
- Network reliability (Telstra fibre plus licenced microwave backup links are servicing the community)
- The option for an upgrade to both 4K Foxtel through a Community Strata Initiative
- Choice of Retail Service Providers giving you the ability to select the best provider for your needs

Upgrading your connection to fibre is the first stage of our Technology Refresh at Coomera Waters where we are currently working with your community stakeholders on the following upgrade projects: -
Access Control Services – Intercom to latest screen technologies

- CCTV Security expansion

Regarding the cost, its easy to upgrade:-

- Pay a one-off charge of \$199 to LBNCo. Enquire by emailing coomerawaters@lbnco.com.au

This offer is valid until 30 June 2020.

As an update on our organisation we are pleased to announce that LBNCo recently acquired OPENetworks and is the Wholesale & Infrastructure group within the ASX listed UNITI Group (ASX:UWL). As such we are one of Australia's largest NBN fibre operators with over 130,000 contracted homes in communities across Australia.

Please do not hesitate to contact us with any questions.

Kind Regards

Malcolm Wallace,
General Manager Business Operations
